Offshore Implementation Methodology

Collaborative Design

"..... this is a new concept. After our search failed in the east coast we went to G&G. They are highly innovative, implementing new ideas in creative and new ways.... admire their tenacity, and approach"

James Roberts, President & CEO, DSS Corp.

SHORT HISTORY

Since its inception in 1993 at North Carolina, USA, G&G Technologies has evolved into a leading provider of IT and Web software solutions for small, medium and large enterprises. We specialize in off-shore outsourcing, design, development, consulting and software testing. Today, G&G has offices and project management centers all around the globe. Our multiple software design-labs in India, and project management centers near client locations enable us to focus on high quality design, rapid implementation and QA testing with the most cost efficient and timely delivery to our clients.

- [Utilities, energy, chemical](#)
- [Hotel, hospitality, travel](#)
- [Telecommunications](#)
- [More...](#)

"..... before we started with G&G the application was over budget, taking too long, no end in sight. We feel lucky after working with these folks. unbelievably rapid development, contained cost team work we have communications everyday, sometimes hourly"

CIO, Large west coast company, California

"..... G&G did a thorough and professional job for our software testing & QA project and recommending corrective actions."

Jim Szelmanski, Asst. Director for Information Systems
American Accounting Association

"... after outsourcing with many local companies, in the last two years we are working exclusively with G&G because of their dependability, quality and cost. Two large G&G teams are working for us from India for a very complex system development ... an extension of our team ... we bring their developers on-site as we need ... local support, strong methodology"

Delbert Arrendale, President, AAI
